

# Chelsie Lin

Product Manager, UX Designer, and Frontend Developer  
206-953-2602 | chelsie.xue@gmail.com | [LinkedIn](#) | [Portfolio Website](#)

## HIGHLIGHT

- 4 years of experience building and launching AI and fintech products, including an AI chatbot serving **6M+** users.
- Delivered measurable impact with 60% fewer support calls, **\$100K** in annual savings, and **\$32M** in customer deposits.
- Technical foundation in SQL, API integration across 1,000+ dialogues, and front-end development (JavaScript, React)

## EDUCATION

**University of Wisconsin - Madison (GPA: 3.86)**

Sep 2024 – May 2026

Master of Science in Information - User Experience track (STEM)

## WORK EXPERIENCE

**Ascenzi & Associates – Web Product Manager | Peoria, AZ**

Aug 2026 – Present

- Led 0-to-1 development and launch of a B2B website for international manufacturers entering the U.S., from user research and PRDs to UX design and development.
- Managed development in Trello and coordinated cross-functional execution to launch the product within one month.
- Integrated CRM and lead-generation workflows and monitored SEO performance to improve acquisition and guide product optimization.

**WoafMeow AI – Product Manager Intern | Walnut, CA**

May 2025 – Aug 2025

- Defined product strategy for an LLM-powered pet-care platform through competitive analysis and 20+ user interviews, translating insights into product requirements and roadmap priorities.
- Designed Day-2 AI engagement, including companion personas, AI interaction flows, and conversational scripts to create more personalized ongoing experiences.
- Ran A/B tests on onboarding flows, increasing subscription conversion by 15%.

**LINE Bank – Chatbot Product Manager, AI Team**

Jan 2020 – Apr 2022

Taiwan's largest virtual bank backed by LINE Corp, serving 3.16M accounts

- Owned the end-to-end launch of an AI financial chatbot, writing PRDs, defining conversation architecture, and coordinating cross-functional teams to serve **6M+ subscribers, generating 5M+ conversations and supporting 1.1M account openings.**
- Managed dual AI platforms (NAVER Clova and SysTalk), labeling and evaluating 10,000+ AI training queries, defining intent/entity taxonomy, and prioritizing candidate responses to deliver the most relevant answers, **achieving 90% NLU accuracy and contributing to a 60% reduction in support calls and \$100K in annual savings.**
- Integrated 30+ banking APIs across 1,000+ chatbot dialogues, enabling users to complete 80% of supported banking services directly through chat.
- Designed chatbot personas, UX guidelines, and reusable conversation templates, improving user satisfaction to 90%.
- Analyzed user behavior with SQL to identify card delivery as 20% of inquiries; launched self-service tracking that reduced related support volume by 15%.
- Optimized acquisition funnels using SQL, UTM tracking, and Google Analytics, increasing **CTR by 35%** and contributing to **\$32M in deposits.**
- Executed 700+ SIT, UAT, and stress tests in Jira to ensure reliable 24/7 service at launch.

**AppWorks School – Front-End Developer**

Oct 2022 – Jun 2023

- Designed and developed a one-stop travel planning platform integrating search, maps, routes, and itinerary planning into a single user experience.
- Built the front end with React and JavaScript and integrated Google Maps APIs, improving task completion speed by 30%.

## PROJECT

**Amazon Shopbop Outfit Match | Product & UX Lead (UW–Madison / Amazon | Fall 2025)**

- Led product development from user research and competitive analysis to PRD, roadmap, prototyping, and usability testing.
- Partnered with Amazon mentors to translate customer needs and business goals into a personalized outfit recommendation experience.
