HIGHLIGHT

- Product Manager with 4 years experiences in fintech AI official launch, scaling to **6M+** users and driving **1.1M** account openings.
- Delivered measurable impact with 60% fewer support calls, **\$100K annual savings**, and contribute to **\$32M** in customer deposits.
- Technical foundation in SQL, API integration (3,000+ APIs), and front-end development (JavaScript, React, Firebase).

EDUCATION

University of Wisconsin - Madison (GPA: 3.86)

Sep 2024 – May 2026

Master of Science in Information - User Experience track (STEM)

WORK EXPERIENCE

Ascenzi & Associates - Peoria, AZ

Aug 2026 – Present

Web Product Manager

- Own U.S. market research and market-entry initiatives for a construction consulting firm serving international companies entering the U.S. manufacturing and construction market, turning research findings into actionable strategies.
- Drive website development from concept to launch by conducting competitive analysis, defining product requirements, writing PRDs, and aligning Design and Engineering teams throughout the development process.

WoafMeow AI - Walnut, CA

May 2025 – Aug 2025

Product Manager Intern

- Defined product strategy for the **LLM-powered veterinary AI platform**, partnering with licensed vets to deliver accessible pet health assessments through a low-cost subscription model.
- Conducted 20+ user interviews to identify pet owner personas and unmet needs, translating findings into a prioritized roadmap that strengthened post-launch user engagement.
- Ran A/B tests on onboarding flows to improve subscription conversion by 15%, using hypothesis testing and behavioral data analysis to optimize the user journey.

LINE Bank - Taiwan's largest virtual bank backed by LINE Corp, serving 3.16M accounts

Jan 2020 – Apr 2022

Chatbot Product Manager, AI Team

- Owned the end-to-end launch of an AI financial chatbot, writing PRDs, defining conversation architecture, and coordinating cross-functional teams to serve **6M+ subscribers, with 5M+ conversations and facilitate 1.1M account openings**.
- Managed dual AI platforms (NAVER Clova and SysTalk), analyzing 10,000+ customer inquiries and refining the intent-entity taxonomy to improve NLU performance, achieving **90% accuracy and contributing to a 60% reduction in support calls and \$100K in annual savings**.
- Integrated 3,000+ APIs across 1,000+ dialogues, enabling users to **complete 80% of banking services** directly through chat.
- Designed chatbot UX guidelines, personas, wireframes, and reusable conversation templates, creating a scalable design system that streamlined development, shortened task completion time, and improved user satisfaction to 90%.
- Used SQL to identify card delivery as 20% of customer inquiries post-launch; integrated a postal tracking API and launched self-service tracking, reducing support volume by 15%.
- Mapped the customer acquisition funnel using UTM tracking, SQL, and Google Analytics; optimized campaign performance to increase **CTR by 35%, contributing to \$32M in customer deposits**.
- Planned and executed 700+ SIT, UAT, and stress test cases in Jira, ensuring stable 24/7 service availability at launch.

AppWorks School

Oct 2022 – Jun 2023

Front-End Developer

- Built and launched a travel planning platform within a 4-week Scrum sprint using ChatGPT and GitHub Copilot for AI-assisted development, independently owning planning, development, testing, and release.
- Integrated Google Maps APIs and route optimization features, improving task completion speed by 30%.

PROJECT

Amazon Shopbop Outfit Match | Product & UX Lead (UW-Madison / Amazon | 2025)

- Partnered with Amazon mentors and cross-functional stakeholders to define product requirements, roadmap, and go-to-market strategy for a personalized outfit recommendation experience.
- Led the full product lifecycle from competitive analysis, user research, and PRD creation to Agile sprint planning, prototyping, and usability testing, translating business goals into validated product recommendations.

SKILL
